

“

My son is half way through his journey at KLB.

There have been highs and lows, twists and turns, like a roller coaster ride!

The KLB SEN team are a frame work, a scaffold, beneath the roller coaster, that help guide my son through what is one of the most challenging difficult stages in his life. They provide support whenever and wherever he needs it during his day, in lessons or break times, socially and emotionally. At KLB he knows there is always someone and somewhere he can go to if he needs help or just a quiet space to be.

Regular, consistent communication and reviews provided by the SEN staff are fundamental in helping me to support my son at home, giving him the tools he needs to be confident, safe and above all, happy.
