

“

I was really worried about sticking out in Y7 at KLB – I didn't want to be seen as the weird pupil who needed 1:1 support and special help. Before starting in September, I was able to chat with a key person about my worries, and she helped me. She made sure that I had the help I needed, but that I wasn't stifled. The teachers understand my needs, and I know that if I am struggling I just need to tell someone.

I love being able to go to A1 – it's a safe place for me to go to, and I enjoy spending time there. I sometimes complete homework there, or I can work on something I am finding tricky.
