

“

*“Support has been OK. The two TAs that I have been with have been particularly helpful and supportive. I have really enjoyed science classes, in particular the practical experiments. I find English challenging, but I like that a teaching assistant provides me with one-to-one support in a quiet space (A1). The support I receive from the SEND team is better than I was expecting.*

*The strategies that have been put in place for me have been good; I particularly enjoy the horticulture sessions on Thursdays.*

*By ES, 2021 intake*
